-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Referring to claim 1, the specification on Pages 14-16 teaches that a hub station receives a request over a common signal channel and determines whether the request for usage of the common line channel is less than a specific quantity. The specification does not teach that the plurality of earth stations makes the decision. Where in the specification does it say that “said plurality of other earth stations determine that a quantity of data to be transmitted is below a predetermined threshold”.

Response to Amendment

- 3.0 Applicant's arguments filed 10/25/05 have been fully considered but they are not persuasive.

The examiner respectively disagrees with the applicant argument relative to claim 1. The applicant argues that Pg 15 lines 1-7 teaches “said plurality of other earth station are configured to transmit data to said specific earth station over the common channel line without requesting a communication line whether plurality of earth stations determine that the quantity of data to be transmitted is below a predetermined threshold”. Where in the specification does it say that the

Art Unit: 2661

plurality of earth stations make the decision. Pg 15 lines 1-7 teach that the data is sent to a hub and the hub makes the decision. The specification on Pg 15 lines 1-7 never states that the hub is an earth station makes the decision relative to a threshold. The specification on Pgs 7-10 teaches that a hub station determines whether the data quantity transmitted is below a certain quantity on Pg 7-10 before the line channel assignment is made. Where in the specification is threshold mentioned?

4.0 THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
